

# CASA De ORO Coverage Analysis for Proposed Relo Tower

Charles Hockley  
RF Design Engineer  
06/07/2018

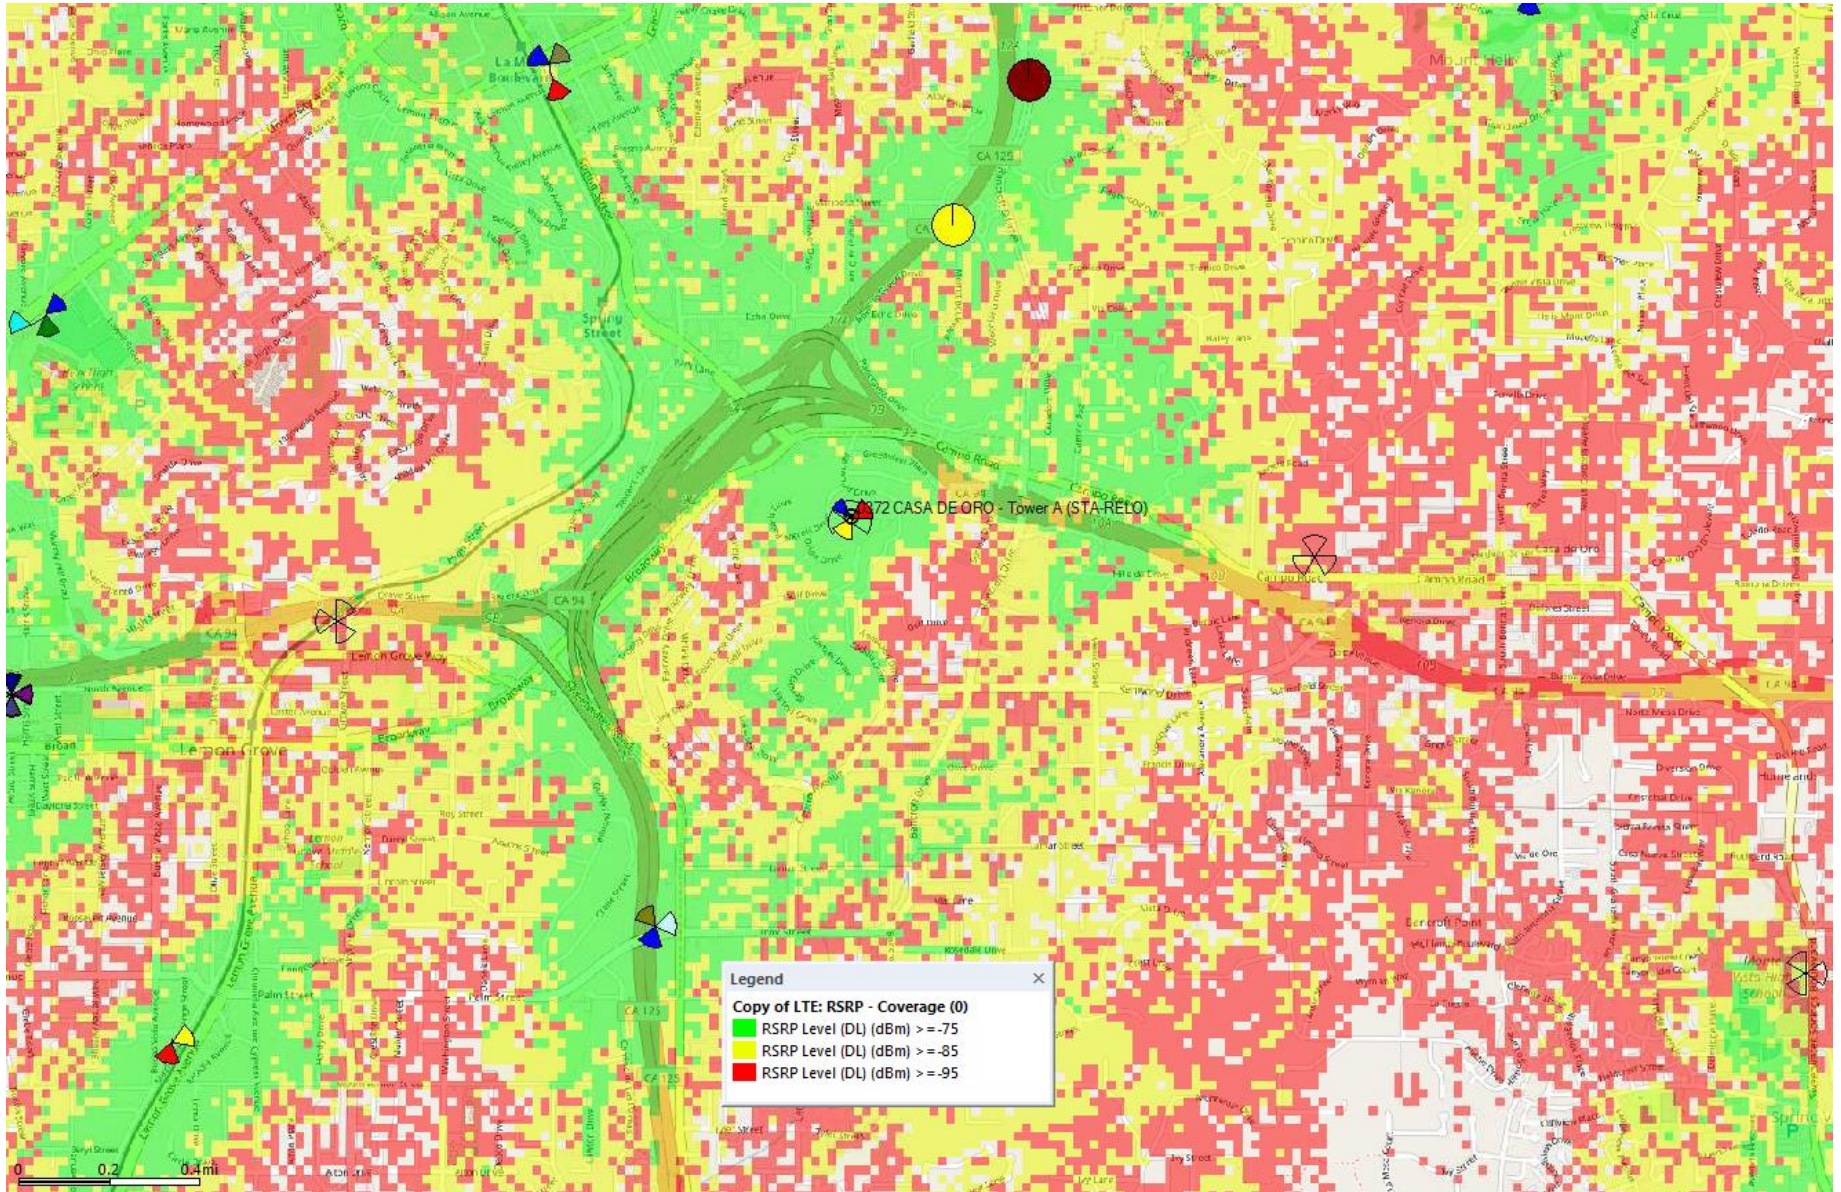

# Existing RSRP

# Relo Tower RSRP

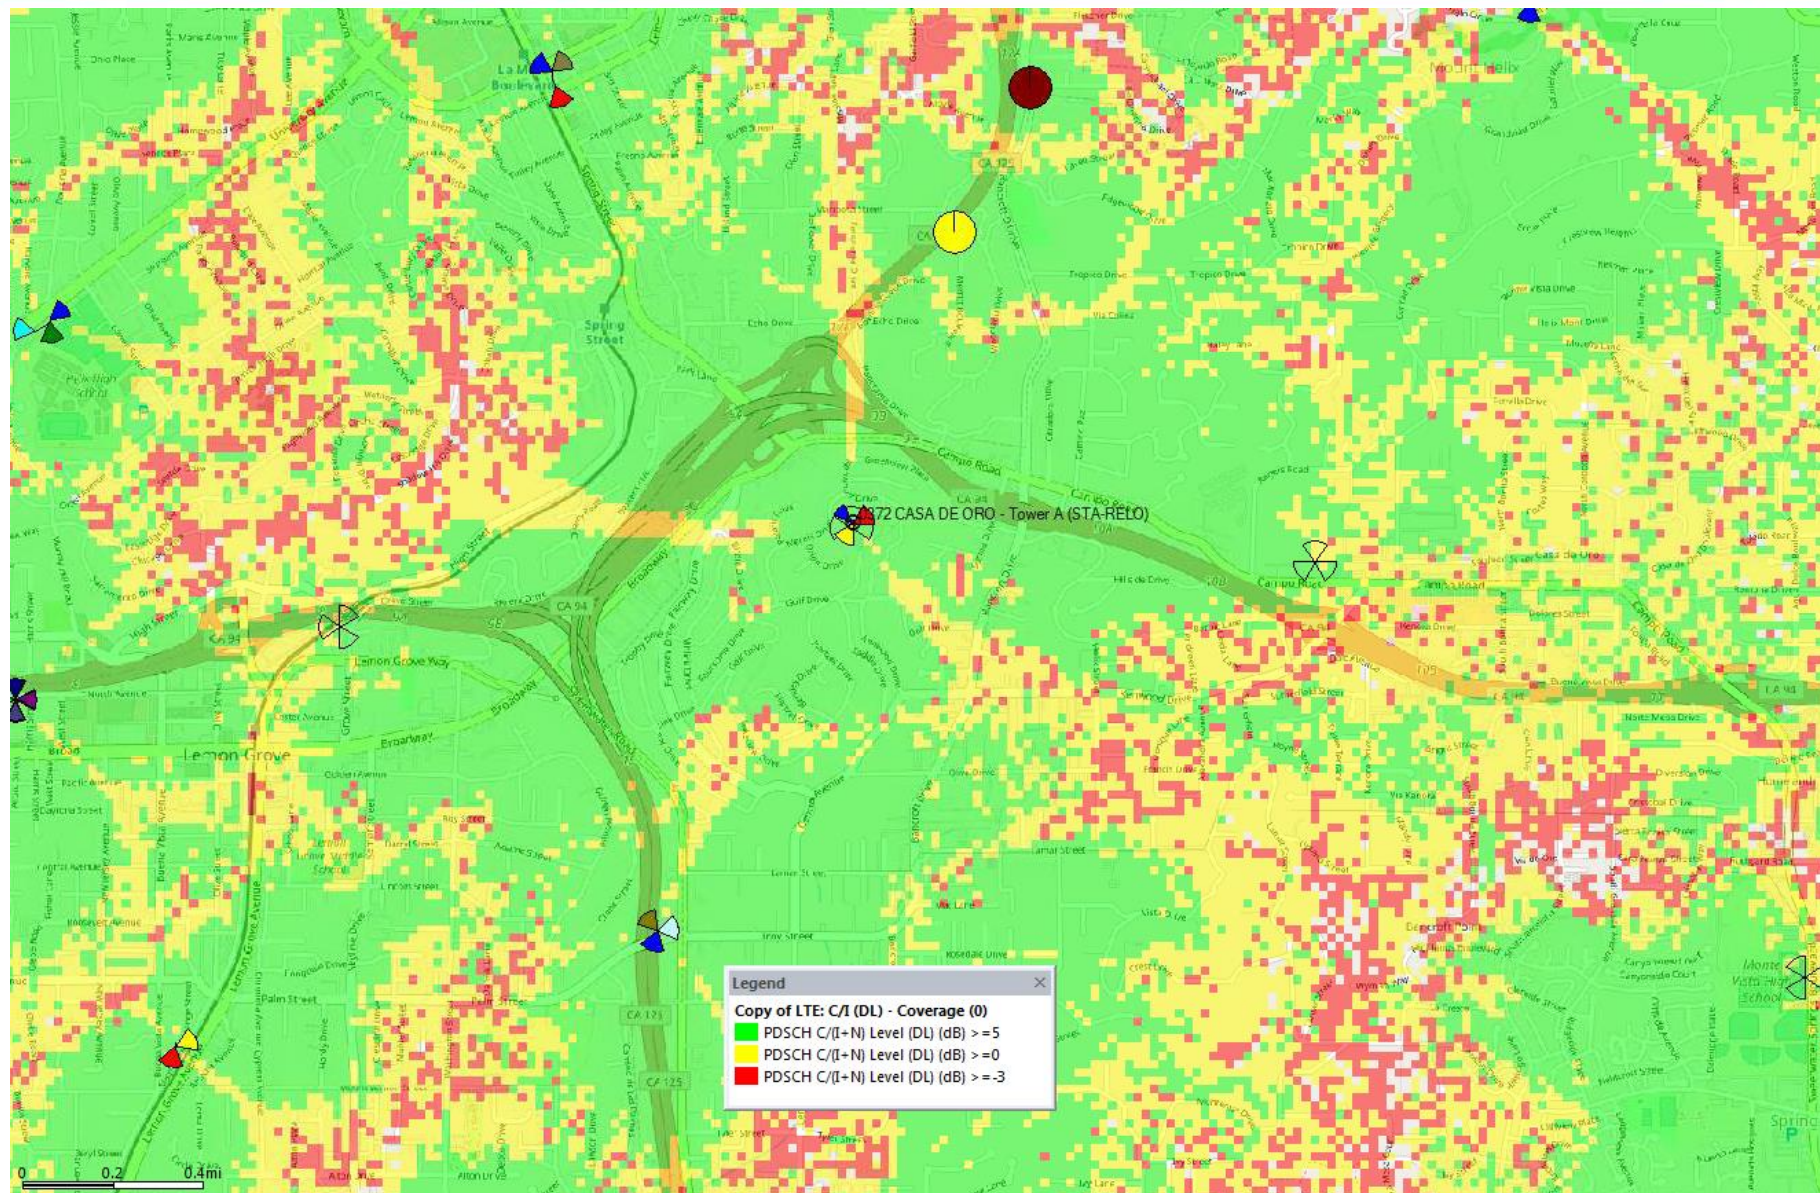

# Relo Tower SiNR

## Coverage Objectives

- Replace and/or enhance existing coverage to the surrounding residential & Commercial areas, CA-94, CA-125 & Spring St.
- Reduce in-network interference and improve signal quality

## Analysis

- Some coverage to the West of the site is negatively impacted due to changes in antenna configuration
- The coverage and signal quality in all other directions is replaced or enhanced.
